

Average residential ESS price per 800kW in Guernsey

What is the maximum resale price for electricity in Guernsey?

Guernsey Electricity Limited, in accordance with section 23 (2) (b) of the Electricity (Guernsey) Law 2001, hereby gives notice that the maximum resale price at which electricity can be resold by persons to whom it is supplied is *25 pence per unit. What Is A Tariff? Put simply, a tariff calculates your bill.

Are Guernsey's Electricity prices rising?

Guernsey's electricity prices stayed the same from 2012 to 2019, but have since risen significantly. These price rises mean the average Guernsey household will spend between 47% and 117% more on electricity from July compared with 2021.

How will Guernsey Electricity rebalance its income?

The increase will see a rise in both the unit price of electricity and the quarterly standing charges, which together make up customer bills. This will begin to rebalance the amount of income which Guernsey Electricity receives from each element.

How much would a low-usage household spend on electricity in Guernsey?

Using the analysis, a typical low-usage household in Guernsey would spend £637 a year on electricity from July. Depending on the region, in Britain they could expect to save between £7 and £123 a year - between 1% and 19% less than Guernsey.

Does Guernsey Electricity charge a monthly charge?

Where Guernsey Electricity is required to provide a standby electricity service for 'behind the meter' non-renewable energy installations (including CHP) with generation capacity in excess of 25kW, a monthly charge will be applied. For every kW of installed capacity, we charge the standby rate'

Should Guernsey Electricity invest £10.7 million a year?

Guernsey Electricity has identified a minimum requirement to invest £10.7 million a year between now and 2025 to maintain and improve the local supply network.
