

# BESS project financing options in Israel 2026

Does Nofar energy have financing for Stendal Bess project?

Israeli developer and independent power producer Nofar Energy has secured EUR 86.5 million (\$92.5 million) in project financing from NORD/LB for its 104.5 MW /209 MWh Stendal BESS project in Germany. The Stendal project is backed by a seven-year fixed-price flexibility purchase agreement (FPA).

How do I secure debt for Bess & hybrid projects?

Securing debt for BESS and hybrid projects requires a "bankable" revenue forecast from lenders preferred consultants. Developers need their own flexible modelling tools to optimise project design and achieve more favourable financing terms.

What is the gap between merchant Bess & hybrid projects?

As merchant BESS and hybrid projects become increasingly prevalent, the gap between developers using sophisticated modelling platforms and those relying on consultant-only or basic internal models will only widen.

How can Bess obtain contracted revenue?

BESS can obtain contracted revenue through: This means that project modelling software used by developers should be able to incorporate these kinds of commercial structures. It is important to note that the lenders will look closely at the capacity of the off-takers to pay for the contract.

Is Bess a 'merchant' or 'profit-share' contract?

This is opposite to the common 'merchant' or 'profit-share' contracts, where the BESS owner remains exposed to the revenue risk and upside. However, with BESS revenue stack impossible to predict in the long run, the certainty of revenues under a tolling deal can improve the prospects of getting debt financing.

How does a Bess deal work?

In other words, they lease the battery and renounce any trading control over the period covered by the deal in exchange for a fixed payment. They remain responsible for maintenance and availability of the BESS, however, while having little to no influence on its operational regime.

As the renewable energy sector rapidly evolves, battery energy storage systems (BESS) are emerging as a critical pillar for decarbonization. However, with capital constraints and rising market ...

E.ON came on board in March 2024. British battery energy storage system (BESS) firm Field has secured new financing to continue building out its UK project pipeline. The £42 million non-recourse loan from Rabobank ...
