

BESS project financing options in Romania 2026

How much funding is available for Bess projects?

EUR79.6 million (US\$85.7 million) in funding is available for the BESS projects. The call has been relaunched by the Ministry after an initial launch in 2023 had been expected to see projects selected by the end of last year. That original call had been for around 620MWh or more of storage, as announced by the Ministry of Energy in November 2022.

Which Romanian companies are adding Bess to their renewable assets?

Other Romania-based companies, such as Parapet and Waldevar Energy, have told pv magazine that adding BESS to their renewable assets is a top priority. The May edition of pv magazine features an in-depth look at Romania's solar and energy storage markets.

Is Romania a Bess market?

"As other European BESS markets become increasingly saturated, Romania stands out," said Evangelos Gazis, Aurora's head of Southeastern Europe, adding that the investment case for storage is strengthened by wind and solar's rapid expansion driving high volatility in wholesale and balancing markets. Interesting activity

When will a Bess project enter the market?

Based on its modeling, Aurora foresees double digit internal rates of return for standalone BESS projects entering the market as early as 2026, while co-located assets could prove even more promising - especially post 2028 where rising saturation in the balancing markets is observed, it said.

Is the Bess market heating up in Romania?

The BESS market in Romania is heating up, say local analysts and insiders. Irene Mihai, policy officer at the Romanian Photovoltaic Industry Association (RPIA) recently told pv magazine that a realistic target for the utility-scale BESS segment in Romania "would be around 2 GWh (around 1 GW of installed capacity)" for 2030.

How much does Romania spend on battery energy storage in 2026?

Romania has also earmarked EUR 199 million to support new capacities for the production and recycling of batteries and solar cells and panels. With this reopened bidding, the ministry aims to see the two-hour duration battery energy storage system (BESS) facilities up and running by mid-2026. The budget for the BESS projects is EUR 79.6 million.

Statera Energy has received up to £300m of debt financing from Lloyds Bank to develop a BESS and flexible generation project in the UK.

BESS project financing options in Romania 2026

Romania sets ambitious targets for battery energy storage systems, aiming for 2.5 GW by next year and 5 GW by 2026. Major investments underway to meet growing energy needs.

Emily Sidhu, director in the banking and investment team at UK Infrastructure Bank (UKIB), explains that the main barrier to the project financing of BESS projects relates to revenues. ...

Romania has launched a new non-refundable funding program for battery energy storage systems to the tune of EUR 150 million (\$158 million), this time dedicated to standalone facilities. The Ministry of Energy said on ...

The 209 MWh Stendal battery energy storage project is expected to be fully operational by early 2026, one year before its seven-year tolling agreement comes into effect.

Specifically, Romania allocated EUR 80 million (USD 87m) under its National Recovery and Resilience Plan for an energy storage programme expected to award 1.8 GW of capacity. Submitted projects as part ...

Contract for Difference tender for BESS and other regulatory support in collaboration with EBRD, to take place most likely in 2026 with details to be published later this year.

Financing remains one of battery energy storage system"s (BESS) biggest talking points, as bankability, risk mitigation, insurance, and more.

Battery energy storage systems (BESS) store electricity and flexibly dispatch it on the grid. They can stack revenue streams offering arbitrage, capacity and ancillary services ...

The full details of the tender (in Romanian) can be found here. Just prior to announcing the Romania project, R.Power also said it would start building a BESS in Poland in ...

Project Overview The Mozaceni PV+BESS Project, located in Mozaceni, Romania, integrates a 21.55 MW photovoltaic (PV) system with battery energy storage to enhance grid reliability and ...

The government of Romania is looking to support the deployment of commercial and industrial (C& I) battery energy storage systems (BESS) to the tune of EUR 103.5 million. Minister of Energy Virgil ...

Polish solar developer and independent power producer (IPP) R.Power SA has obtained EUR 15 million (USD 15.5m) in grant financing from the Romanian government for a ...

The rapid evolution of the utility-scale battery energy storage systems (BESS) market in Australia, Europe and the US has seen the emergence of a wide range of offtake products. These arrangements offer opportunities for ...

BESS project financing options in Romania 2026

Anca Ilin, Head of Project Finance Banca Comerciala Romana: "At BCR, we have been a pioneer of renewable energy financing, and we invest constantly in supporting the ...

He also warns that "whether a standalone or co-located project, understanding market risks is vital for successful investments". BESS are a new development in Romania and ...

A technical guide for selection criteria has been issued, with the call including funding for the purchase of equipment and its installation, as well as construction of BESS assets.

As the renewable energy sector rapidly evolves, battery energy storage systems (BESS) are emerging as a critical pillar for decarbonization. However, with capital constraints and rising market ...

The BRPL BESS project is the first commercial standalone BESS project at the distribution level in India to receive regulatory approval for a capacity tariff and will play a pivotal role in facilitating the uptake of low-cost ...

The Minister emphasized the importance of new investments in the BESS sector as a major priority for the national energy industry. Romania has allocated EUR 80 million (USD 87m) under its National Recovery and ...

Romania's cautious steps toward BESS deployment can gain direction and confidence by looking to the more mature energy storage policies adopted in neighboring ...

Bringing it all together Elgar Middleton has extensive knowledge of, and experience in financing, co-located BESS, standalone BESS, BESS duration, warranty ...

Germany's BESS Installations Types (as of 2023) Total Grid-Scale BESS Capacity and Forecast (in GWh) Bundesverband Solarwirtschaft (BSW) forecasts an additional ...

204MW BESS project planned in Romania with Huawei technology Minister of Energy Sebastian Burduja signing 24 financing contracts for self-consumption solar and storage projects, worth ...

Ingrid Capacity commissioned the Nordics" largest project portfolio and announced the construction of the second-largest energy storage portfolio in the Nordics. ...

Timera Energy look at offtake & financing conditions across key BESS markets, optimisers & offtake contract structures and the evolution of battery debt financing

The funding, totaling RON 74.6 million, was granted by Romania's Ministry of Energy and was announced by

BESS project financing options in Romania 2026

R.Power on LinkedIn on January 3, 2025. This project will ...

Whether a standalone or co-located project, understanding market risks is vital for successful investments," Panos Kefalas, Research Lead at Aurora Energy Research, adds. ...

There is still no battery of such size in Europe. Early-stage investor in battery producers EIT InnoEnergy participates in the project. Backed by the European Union's European Institute of Innovation and Technology ...
