

BESS tender price in New Zealand 2025

How much does a Bess project cost in New Zealand?

Construction of the BESS, located south of Whangarei, the northernmost city of New Zealand, began in early 2023 and was completed within the project's original budget of NZ\$186 million (US\$109 million). It forms stage two of Meridian's Ruakaka Energy Park development.

Who is delivering a Bess system in NZ?

Saft, a subsidiary of TotalEnergies, is delivering this system, and Meridian anticipates that the BESS will generate annual revenues of up to NZ\$59.3 million. Transpower, a state-owned transmission company, is noted to have played a key role in planning, construction and commissioning.

How much does Bess cost?

The cost of BESS has fallen significantly over the past decade, with more precipitous drops in recent years: This is nearly a 70% reduction in three years, owing to falling battery pack prices (now as low as \$60-70/kWh in China), increased deployment, and improved efficiency.

How many global Bess tenders are there?

We have identified 43 global bess tenders from the public procurement domain worldwide. View the latest global tenders for bess from Africa, the Americas, Asia, Australia, Europe, the Middle East, and other countries.

Why is Bess important in New Zealand?

BESS will become increasingly important in the future as New Zealand's power system relies on more intermittent and variable generation. Work set out in the roadmap includes: Improving network pricing to maximise consumer benefits from new and emerging technologies, including BESS.

What is a Bess battery?

The BESS consists of 80 containerised lithium-ion Saft Intensium shift battery modules from French energy storage systems maker Saft with grid integration support from national grid operator Transpower, which has also played a key role in planning, construction and commissioning.
