Does victron EES have a mandatory Arei inspection in Belgium?

I have been researching the Victron EES system and the mandatory AREI inspections in Belgium. Currently, I have an Enphase 3-phase EQ7+ setup with 19 panels, 5300WP, which has been AREI inspected and approved. This winter, I plan to install a 3-phase setup in my garage, located 26 meters (cable length) away from the house's electrical panel.

What are energy storage systems (ESS)?

Energy Storage Systems (ESS) refer to the various systems used for energy storage, for residential (home batteries), commercial, and/or industrial use. To be clear, this does not include traditional batteries, such as AA, AAA, button cells, etc. Bebat unburdens its participants by assuming a large part of the obligations concerning the legal EPR.

Do I pay an environmental contribution for ESS modules?

You pay an environmental contribution for ESS modules for an installation ≤ 16 MWh. As a Bebat participant, you pay this when the battery is made available on the market, not when you take it back in the future. This is the 'Pay as you Sell' principle.
