

Cheapest school solar storage installation offer in France

Are solar panels a good investment in France?

As electricity prices continue to soar in France - up 60% in four years - more people are turning towards solar panel kits, which promise to help users save on energy costs and installation prices. The estimated extra cost of electricity in 2024, compared to 2020, is EUR540 per household per year.

Should you install solar panels in France?

Installing solar panels in France is a promising solution for reducing electricity costs and contributing to environmental sustainability. However, before starting, it is important to review legal aspects, obtain the necessary permits, and take advantage of government subsidies.

Can you sell solar panels in France?

In France, it is possible to sell the electricity produced by your solar panels to EDF or another energy supplier. The feed-in price depends on the power of your installation and the conditions of the contract. The average lifespan of solar panels is around 25 years.

Does France offer interest-free loans for solar panels?

In some cases, the installation may be prohibited or require specific solutions to minimize visual impact. France offers an interest-free loan (Eco-PTZ) to finance solar panel installation projects. This measure helps homeowners reduce financial burdens without paying interest.

How much does a solar installation cost in France?

Shadows can significantly reduce the energy output of your solar panels. The price of a solar installation depends on several factors such as power (expressed in kilowatt-peak, or kwc), the technology chosen and installation costs. On average in France, count between 2500 and 4000 euros excluding tax per kwc for a residential installation.

Do I need a permit to install solar panels in France?

Before installing solar panels in France, it is important to determine whether a special permit is required. For most residential homes, bureaucratic procedures are minimal, but certain factors may require additional approvals.
