

Cheapest school solar storage installation offer in New Zealand

What is the New Zealand Solar Schools programme?

The New Zealand Solar Schools programme helps schools realise their solar potential. Power Technology offers tailor made solar packages, educates the students on the importance of solar energy and energy efficiency, and is available to any school in New Zealand. Become a solar school. register your school now.

How can solar energy benefit schools in New Zealand?

Solar energy is a clean, renewable, and abundant source of energy that can benefit schools in New Zealand. By using solar panels, schools can reduce their carbon footprint, save money on energy bills, and provide an excellent opportunity to educate students about renewable energy.

Who can benefit from solar energy in New Zealand?

We believe every school in New Zealand can enjoy the benefits of solar energy! We offer On-Grid, Off-Grid and Hybrid solar solutions for any and every school in New Zealand. OVER 100 School installs & counting!

How much does a solar system cost in New Zealand?

MyMiniSolar provides simple, affordable solar solutions for New Zealand homes, starting from under \$2,000, with compact plug-and-play systems that reduce energy costs and carbon footprints.

How does solar power work in New Zealand?

Power is generated from solar panels during the day, appliances can freely use this energy. If appliances are turned off, solar power is sent to the grid, and sold to your energy retailer. Common residential grid-connected system sizes installed in New Zealand range between 3kW and 5kW. View grid-connect solar power system prices [here](#).

What is a school Solar System?

Educational facility solar systems are still connected to the grid, like normal home solar, but are larger--normally at least 10kW, or as much as several hundred kW's--depending on the size and power demand of the school.

Unfortunately, storage unit companies offer many different storage spaces of all sizes, which makes it extremely confusing to compare prices. Additionally, there isn't a clear ...
