

Container energy storage supplier quotation in Belgium 2026

How many energy storage projects are there in Belgium?

A quick look at the European Energy Storage Inventory public database hosted by the European Commission (EC) JRC Smart Electricity Systems initiative using data from Wood Mackenzie highlights 21 operational energy storage projects in the Netherlands and only 12 in Belgium.

Is Belgium ripe for battery storage development?

Belgium and its neighbour, the Netherlands, have been talked about by industry and analysts as being ripe for battery storage development.

Are merchant-exposed projects sourcing project finance in Belgium?

"We have seen similar or even much bigger merchant-exposed projects sourcing a large share of their financing through project finance in the Netherlands recently, but Belgium is a bit more complex market," BStor's Pierre Bayart said.

Why is Belgium's storage fleet growing so fast?

Belgium's storage fleet is growing at a fast pace, not the least due to the opportunity to secure contracted revenues via its CRM auctions. On the last day of October, system operator Elia published the results of the CRM auctions held this year, showing that a total of 450 MW of BESS had secured contracts.

How much battery capacity will be paid by winter 2028-2029?

Aurora Energy Research calculates that over the past CRM auction rounds, 1.1 GW of new-build battery capacity was selected to receive capacity payments by winter 2028-2029. Over the past four auction rounds, a total of 13 new large-scale BESS projects were selected, with ENGIE, Storm, and GIGA Storage securing the largest contracts.
