What is energy storage International Conference & Expo (Esie)?

Martine Xu |conference@cnesa.org Since its establishment in 2012, the Energy Storage International Conference and Expo (ESIE) has successfully held 13 editions. It is the world's leading energy storage event and professional exhibition platform. It is hailed as the barometer of China's energy storage industry development.

How will the energy storage industry evolve?

More than a hundred leading figures in the energy storage industry will convene to deliberate on breaking pathways for the new energy storage industry and uncover routes towards quality industrial development. The global energy transition is accelerating towards carbon neutrality, driving rapid growth in the energy storage market.

How can the energy storage industry benefit from a 160,000 square meter exhibition?

Using top-tier hardware to display the energy storage industry ecosystem, the integration of 160,000 square meters of exhibition space and facilities will provide enterprises with a multidimensional platform for showcasing technical solutions and brand value.

What is the PV exhibition area & energy storage area?

The PV exhibition area includes silicon materials and wafers, cells and modules, inverters, mounting systems, and PV application products, while the energy storage area covers battery materials, cells and modules, storage system integration, BMS/PCS, charging stations, and smart energy management systems.

What's happening at the 12th Energy Storage Summit?

Standing at a critical moment as we plan for the upcoming 12th Summit, this event will delve deep into trending storage topics, conducting comprehensive and multidimensional discussions concerning policies, projects, and technologies of energy storage, for an insightful and industry-enriching forum.

As Saudi Arabia accelerates its shift towards clean energy, the market demand for energy storage becomes apparent. Establish special economic zones to support investment and development ...

In 2009, the Shenzhen New Energy Industry Revitalization and Development Plan (2009-2015) was formulated, focusing on supporting the development of industries such as solar energy, nuclear energy, wind energy, biomass ...

The exhibition brings together the entire value chain of the solar and energy storage industry, from C&I developers and installers to EPCs, investors, regulatory agencies, software innovators, ...

# Energy storage exhibition investment scope

Why Energy Storage Exhibitions Are Becoming Investment Powerhouses You know, the global energy storage market is projected to hit \$200 billion by 2030, but here's the kicker: 2025 ...

The Energy Storage International Summit and Exhibition is hosted by the Zhongguancun Energy Storage Industry Technology Alliance and organized by Beijing United Energy Storage ...

? Comprehensive exhibition area: Government groups and energy storage industry parks, hydrogen demonstration zones, hydrogen infrastructure, hydrogen patent and achievement ...

As a benchmark for promoting high-quality development of the energy storage industry, the China International Energy Storage Conference (CIES) has always adhered to the characteristics of ...

It can achieve precise demand docking on the exhibition platform, aiming to break down industrial barriers and promote the development of the energy storage industry.

Ever wondered where the energy storage industry gets its adrenaline rush? Look no further than global exhibitions like CESC2025 in Nanjing and CIES2025 in Hangzhou.

More than a hundred leading figures in the energy storage industry will convene to deliberate on breaking pathways for the new energy storage industry and uncover routes towards quality ...

The 4th EESA Shanghai Energy Storage Equipment Exhibition will be held in May 2025 at the National Convention and Exhibition Center in Shanghai, China. The exhibition has attracted ...

Industry Scope Solar & Storage Live Dubai is the region's solar and energy storage exhibition that celebrates the technologies at the forefront of the transition to a greener, ...

The theme of this conference is "Focusing on the Development of Energy Storage Industry and Empowering Smart Green Energy". Relevant department leaders, energy ...

In 2025, the 4th EESA Shanghai Energy Storage Equipment Exhibition will be held grandly. With the increasing global attention to renewable energy and energy storage technology, this ...

From April 10 to 12, 2025, the 13th Energy Storage International Conference and Expo (ESIE 2025) was successfully held, marking a key moment for the energy storage industry as it ...

2025 World Solar Photovoltaic and Energy Storage Industry Expo (The 17th Guangzhou International Photovoltaic Energy Storage Exhibition) Time: August 8-10, 2025 Location: ...

Exhibition scope: 1? Energy storage technology and materials: 1. Physical energy storage technologies and

# Energy storage exhibition investment scope

materials such as compressed air energy storage, flywheel energy storage, ...

ESIE will invite authoritative experts and energy storage elites from national energy authorities, local governments, grid companies, power generation groups and owners, as well as ...

2025 Shenzhen International Energy Storage Exhibition Scale advantage, meeting new distributors and buyers: providing strong guarantee for exhibitors" actual exhibition effect. This ...

2024 Shanghai International Digital Energy and New Energy Storage Exhibition Simultaneously held: China (Shanghai) International Technology Import and Export Fair Exhibition time: June ...

Driven by both market and policy factors, the growth of energy storage is expected to be explosive, creating a strong demand for the industry"s supply chain. Once again, the China ...

Join Sumitomo Electric USA as we showcase our latest energy storage solutions for renewable energy transition. Discover innovations in energy storage technology that are driving the future of sustainable energy and ...

CBTC 2025 Shanghai International Energy Storage and Lithium Battery Technology Conference and Exhibition Time: July 29th to 31st, 2025 Address: National Convention and Exhibition ...

Scale advantage, meeting new distributors and buyers: providing strong guarantee for exhibitors" actual exhibition effect. This exhibition is expected to attract over 50000 visitors and adopt a ...

In line with market trends, actively expand the entire power industry chain, and further focus on a number of potential user groups, including energy storage, data centers, rail transit, medical, construction and supporting ...

The planned exhibition area for the 2024 Shenzhen International Digital Energy Exhibition is approximately 70000 square meters, and it is planned to invite around 120 countries and ...

The Energy Storage Conference and Exhibition (CIES) will continue to be held at the Hangzhou International Expo Center. The theme of the conference is: Green, Digital Intelligence, ...
