Why did the BPU limit Phase 1 energy storage incentives?

To align with the pending New Jersey Assembly Bill A-5267 that would require the BPU to establish a transmission-scale energy storage procurement and incentive program, the BPU limited Phase 1 incentives to transmission-scale energy storage systems, directly interconnected to the bulk transmission system.

Who approved Phase 1 of the Garden State energy storage program?

The New Jersey Board of Public Utilities (BPU) approved Phase 1 of the Garden State Energy Storage Program (GSESP) after two years of stakeholder engagement. Rules related to the GSESP were also approved for publishing in a future New Jersey Register.

How many MW of transmission-scale storage will the BPU provide?

Total Phase 1 goal is 1,000 MW of transmission-scale storage. The prequalification review for deficiencies for Phase 1 applications opens on June 25, 2025, with a deadline for guaranteed review of July 23, 2025. Final bids are due by August 20, 2025. The BPU will announce awards in October 2025.

Who approves the Garden State energy storage program (gseesp)?

The program is authorized and overseen by the New Jersey Board of Public Utilities (NJBP), and its website is [The New Jersey Board of Public Utilities \(NJBP\)](#) today approved Phase 1 of the Garden State Energy Storage Program (GSESP).

What is Phase 1 energy storage?

Phase 1 targets transmission-scale, front-of-the-meter energy storage systems. Distributed storage incentives will follow in Phase 2 (expected in 2026). Below is a comprehensive breakdown of what developers need to know.

What is the Garden State energy storage program?

“The Garden State Energy Storage Program is designed with a clear priority: creating a more reliable and robust grid for the people we serve, ultimately leading to greater cost savings.

Energy storage in New Jersey has so far lagged the state's goals, but the proposed SIP aims to change that by supporting development of 1 GW of 4-hour storage to help meet the 2030 target.

The largest project involves a grid supply system in Warren County on 95 acres of agricultural land, after the board's finding that the project complied with siting restrictions on ...

Sunrange All-in-One 3mwh 5mwh Ess Energy Storage Container with Bpu & DC Panel for Safety, Find Details and Price about Large 500kw 1mwh Lithium-Ion Battery Battery Container ...
