

Enterprise ESS system project financing options in Spain 2025

Will Spain start a new energy storage scheme?

The Ministry of the Environment of Spain has launched its latest financial support scheme for energy storage, aiming to kickstart 2.5-3.5GW.

Can Spain deploy large-scale energy storage with co-financing of 85%?

The European Commission on Monday greenlit a new aid scheme to enable Spain to deploy large-scale energy storage with co-financing of up to 85%. From ESS News The European Commission on Monday approved a new aid scheme for the deployment of large-scale electricity storage in Spain.

How will the European Commission support large-scale energy storage in Spain?

From ESS News The European Commission on Monday approved a new aid scheme for the deployment of large-scale electricity storage in Spain. Subsidies will be available for standalone energy storage sites, projects installed alongside renewable energy facilities, and storage planned as part of thermal power plants.

Why should Spain invest in a Bess fleet?

In addition to stabilising the energy grid, the expansion of Spain's BESS fleet will also prevent energy from being wasted, when supply exceeds demand. The joint venture, targeting greenfield, four-hour duration assets, will progress an initial 2.2 GW pipeline of eight projects across Spain.

How much money will Spain spend on energy projects?

Nearly half of the financial support will be allocated to the southern region of Andalusia, with EUR311 million, followed by the northwestern region of Galicia with EUR86 million and the central region of Castilla-La Mancha with EUR80 million. The projects will make the energy system in Spain more flexible, robust, and resilient, MITECO said.

Does Spain need energy storage?

Spain is targeting around 22.5GW of energy storage by 2030 as part of its National Energy and Climate Plan (NECP). But, it has been relatively slower to deploy grid-scale energy storage than other major EU economies including Italy, France, Germany, Belgium, Netherlands and the Nordics.

Product/System itself and broad portfolio and customization options for the respective application Many years of experience, proven expertise / reference systems

More than 182 MW of the battery energy storage systems (BESS) highlighted in Spain's Official State Gazette (BOE) are for hybridization with existing solar and wind generation capacity.

Global energy storage owner-operator BW ESS has secured debt financing for its 100MW / 331MWh Battery

Enterprise ESS system project financing options in Spain 2025
