

# Enterprise ESS system supplier quotation in Estonia 2025

How can a company become a supplier to ESS?

This page serves as an overview of the entry points to ESS, providing guidance on how companies can become suppliers to ESS. Companies interested in ESS business opportunities can register a business profile in the ESS Supplier Portal to enable matching of potential suppliers with ongoing procurements.

Why is ESS important?

ESS plays a crucial role in modernizing the power infrastructure, enhancing energy security, and supporting the transition to a sustainable energy future. Increasing transition towards green energy is driving the market growth. Global renewable energy generation capability is predicted to enhance by more than two times by 2030.

Will the external ESS market recover in 2025?

IDC expects that the recovery of the external ESS market will be pushed into 2025 as the strong growth in investments into computing infrastructure will start slowing down.

Which government initiatives will increase demand for ESS in future?

Favorable government initiatives to promote ESS in U.S. is likely to increase demand for ESS in future. For instance, Inflation Reduction Act (IRA) provides 30% credit on all residential ESS over 3 kWh in capacity until 2032. For standard household energy storage system IRA reduces cost of ESS by USD 3,000 to USD 5,000.

How did the external OEM enterprise storage systems market perform in 2024?

The external OEM enterprise storage systems (ESS) market reported annual growth of 3.6% in the fourth quarter of 2024, completing the year at 2.5% annual growth and \$33.5 billion in spending. Despite a recovery cycle after declines in 2023 the spending for the year was just \$100 million shy from the level of spending in 2022.

When will ESS be completed?

The company plans to initiate the project in the same month and complete it by 2028. Top 5 companies including BYD, General Electric, LG Energy Solution, Siemens and Samsung held a market share of over 40% in 2024. Major key players are working to develop cost-effective and wide range of ESS.
