

Floor standing battery project financing options in Poland 2025

How much money does Poland spend on battery energy storage?

Poland has finalized a comprehensive subsidy program aimed at accelerating the deployment of battery energy storage systems (BESS), with a total budget of PLN 4 billion (approximately EUR1 billion).

Will energy storage subsidy programs accelerate Poland's energy transition?

The development of energy storage subsidy programs in 2024-2025 has great potential. The planned activities will accelerate Poland's energy transition, supporting the development of technologies and the creation of new jobs in the energy sector. Energy storage subsidy programs are crucial to stabilizing Poland's electricity grid.

How can energy storage facilities be improved in Poland?

Introduction of preferential loans for companies investing in energy storage facilities. Increasing the installed capacity of energy storage facilities by 300% by the end of 2025. Increasing the share of RES in Poland's energy mix to 35% in 2025. Reduction of CO2 emissions by 15 million tons per year.

Why is energy storage subsidy important in Poland?

Energy storage subsidy programs are crucial to stabilizing Poland's electricity grid. An increase in the number of storage installations affects the flexibility and reliability of the power system. Balancing energy supply and demand. Reducing the load on the grid during peak hours. Integration of renewable energy sources (RES).

Can Poland co-finance electricity storage facilities?

Credit: Phonlamai Photo/Shutterstock. Poland's National Fund for Environmental Protection and Water Management (NFOSiGW) has initiated a call for applications for co-financing electricity storage facilities. The programme, funded by the country's Modernisation Fund, has a budget of more than 4bn zlotys (\$1.02bn).

How will PLN's energy subsidies work in 2025?

In 2025, the continuation of the program will enable more households to invest in modern energy technologies. The program provides subsidies of up to PLN 17,000 for electricity storage facilities. The minimum storage capacity eligible for support is 2 kWh, with a maximum subsidy of PLN 6,000 per kWh.

N2OFF to take part in financing a 35MW/140MWh planned Battery Energy Storage System project in Poland Neve Yarak, Israel, May 09, 2025 (GLOBE NEWSWIRE) -- ...

The Polish National Fund for Environmental Protection and Water Management (NFOSiGW) opened on April 4 a call for applications to co-finance energy storage facilities. The much-awaited subsidy scheme aims to improve ...

In autumn 2024 two draft regulations were published regarding state aid for large-scale electricity storage
