

Grid tied storage system tender price in New Zealand 2025

Where is New Zealand's first grid-connected battery energy storage system located?

Meridian Energy has completed construction of New Zealand's first large-scale grid-connected battery energy storage system (BESS) at Ruakaka, with an official opening ceremony scheduled for later today.

Why should New Zealand invest in grid-scale batteries?

Additionally, these batteries, alongside more renewable generation, will help off-set the retirement of thermal generation and support New Zealand's transition to a low-emissions economy. The first grid-scale battery was commissioned in 2023 by Hamilton lines company WEL Networks.

Does solarking offer grid-tied solar systems in New Zealand?

However, we also design and supply grid tied solutions through our parent company, SolarKing. All you need to do is reach out to us. Since the end of 2020, the pricing of solar systems in New Zealand for grid-tied, commercial and off-grid solar, has increased by about 25%.

What is a grid tied solar system?

Grid Tied Solar. A grid tied (or grid tie) system consists of a standard string inverter that does not have the capability to connect battery storage. They are becoming less popular nowadays because of this limitation. It may be worth considering if you are constrained by your budget and you do not intend to ever add battery storage.

What is hybrid battery storage (grid tied)?

Hybrid Battery Storage (Grid Tied). This system comes with a hybrid inverter (as above) plus a battery bank connected. The battery bank will be accessed after dark or during low-light conditions. Depending on the size, you could save 70% to 80% off the power component of your power bill - sometimes even more.

How much can you save with a grid tied solar system?

You can save between 40% to 50% off the power consumption portion of your monthly power bill with a grid tied system. This depends on your location and assumes the sizing (number of solar panels) is carefully considered based on your official regional sunshine hours. Hybrid Battery-Ready Solar (Grid-Tied).
