

Hybrid solar inverter project financing options in Spain 2030

What financing options are available for solar projects in Spain?

Power Purchase Agreements (PPA's) and Crowdfunding are two exciting forms of funding that have entered the solar sector here in Spain. These methods of financing are particularly interesting to businesses and communities. Finance is also available to residents of Spain who have a regular payment into a Spanish bank account.

Why should you invest in solar in Spain?

There has never been a better time to invest in renewable energy and Solar in Spain is now able to offer a complete Key-in-Hand solution including finance options. Many new types of loans have recently been introduced to help businesses and homeowners invest in solar energy.

Which companies will contribute to Spain's energy transition?

Red Eléctrica de España, S.A. is another company that will contribute to Spain's energy transition. It plans to expand and reinforce its transmission network, which transports electricity from power plants to homes, businesses, and industries.

Will Iberdrola build a solar power plant?

In the coming years, Celaya will be working on Iberdrola's ambitious plan to build an extensive network of 19 solar photovoltaic power plants and three onshore wind farms across Spain, Portugal and Germany. "We have an abundance of sunlight, water, and wind, which are the essential components for renewable energy production," he says.

When will Iberdrola's power plants come into operation?

The power plants are expected to come into operation by the end of 2028. The European Investment Bank is providing a EUR1 billion loan to Iberdrola to co-finance the construction of the 22 renewable energy plants in Spain, Portugal and Germany, in a deal signed in June 2023. Called a "framework loan," it can finance a range of projects.

What subsidies are available for solar panels in Castile & Leon?

Subsidies for the installation of solar panels in Castile and Leon can be up to 40% of the total cost of the installation. ICIO tax rebates: up to 95%. There will be subsidy discounts in municipalities with less than 5,000 inhabitants and SMEs.
