

Microgrid storage cost vs benefit calculation in Finland

Does integration of energy storage systems reduce operating cost in a microgrid?

Analysis of the operation of the multi-energy microgrid Another analysis is conducted in this subsection to examine how the integration of energy storage systems leads to operating cost reduction in the microgrid. For this purpose, in Fig. 9, the dispatch of the microgrid is indicated for both the islanded and connected modes.

How much does a storage system cost in a microgrid?

Based on the analysis, CA and P2G systems have \$58.12k and \$115.83k annual costs of investment. However, LI and LA systems have \$160.60k and \$115.83k annual costs of investment, respectively. Aside from that, the impact of each type of storage system on the operation of the electric subsystem in the microgrid is examined.

Is energy storage a viable solution for the Finnish energy system?

This development forebodes a significant transition in the Finnish energy system, requiring new flexibility mechanisms to cope with this large share of generation from variable renewable energy sources. Energy storage is one solution that can provide this flexibility and is therefore expected to grow.

Which energy storage technologies are being commissioned in Finland?

Currently, utility-scale energy storage technologies that have been commissioned in Finland are limited to BESS (lithium-ion batteries) and TES, mainly TTES and Cavern Thermal Energy Storages (CTES) connected to DH systems.

When will Fingrid introduce a capacity fee?

In order to harmonise its pricing practices, Fingrid has decided to introduce a new component to the grid service fees, a capacity fee for grid energy storages, on August 1st, 2025.

How many energy storage systems can be installed in a microgrid?

In Fig. 7 (a), the vertical axis shows the operating cost of the electric subsystem in the microgrid while the horizontal axis shows the capacity of a type of energy storage system. In this stage, the number of storage systems that can be installed is limited to one.
