

On grid solar storage tender price in India 2026

What is sjvn's new solar energy tariff?

This tariff was achieved in a tender by SJVN Ltd for a project that includes 1200 MW of solar power combined with 600 MW/2400 MWh of energy storage. This newly discovered tariff is approximately 5.8% lower than a similar tender auctioned by SECI in December 2024.

How much lower is a solar ESS tariff than a WSH tender?

This newly discovered tariff is approximately 5.8% lower than a similar tender auctioned by SECI in December 2024. Notably, the tariff discovered is identical to those found in the latest auctions of wind solar hybrid (WSH) and significantly lower than vanilla wind tenders. Figure 1: Utility-scale "Solar +ESS" tender auctions in India

Will solar co-location and a 24-month commissioning deadline favour battery energy storage?

Though most utility-scale tenders remain technology-agnostic, the requirement for solar co-location and a 24-month commissioning deadline is likely to favour battery energy storage systems (BESS), the report said. The ongoing decline in battery prices has played a central role in bringing down project tariffs.

How much does solar cost in India?

ble 1. These bids include not only storage costs but solar costs as well; the solar Levelized Cost of Electricity (LCOE) is likely around 2.3-2.5 INR/kWh, reflecting the latest solar costs in India, comprising the majority of the winnin

How low is sjvn tariff compared to SECI's Dec 2024 rate?

Record-low INR3.32/unit tariff set for solar +4-hr energy storage projects in SJVN auction, 5.8% lower than SECI's Dec 2024 rate.

Should energy storage be integrated with solar generation?

The report highlighted the growing shift toward integrating energy storage with solar generation. A February 2025 notification by the Ministry of Power mandates that all upcoming solar tenders include co-located ESS of at least two hours' duration, equivalent to 10 per cent of the project's installed capacity.
