

Solar Inverter tender price in Chile 2026

How many GWh will Chile supply in 2026?

Overall, the CNE seeks to contract around 22,500 GWh through the new energy procurement scheme. The document outlines a 2024 supply tender targeting 2,000 GWh per year. For 2026, Chile plans a bidding process with three energy blocks, each starting between 2029 and 2031.

Does Chile have a solar power deficit?

From 2030, the document states "a significant net deficit not covered by existing contracts," which is why it states that bidding processes will be required to meet these supply needs. Chile's cumulative installed solar capacity reached 8.5 GW at the end of December 2023, which represents around 25.6% of its total power generation capacity.

How much solar power does Chile have?

Chile's cumulative installed solar capacity reached 8.5 GW at the end of December 2023, which represents around 25.6% of its total power generation capacity.
