

# Successful bid price of BESS project in Netherlands 2026

What is the largest Bess project in the Netherlands?

Musselkanaalis at the Zuid-Groningen industrial park in the Groningen province and is the largest BESS in the Netherlands to reach the permitted milestone, LC Energy said (1.2GWh and 1.5GWh projects from Giga Storage and Lion Storage may have previously held the title).

How much does the Antares Bess project cost?

Meewind and Nationaal Groenfonds also provided additional funds to the project. This, according to Return, underscores their commitment to "making energy storage a central pillar of Europe's energy future". Being developed at a cost of EUR85 million, the Antares BESS project will serve both locals and other bigger industry players.

How many Bess projects did Poland win in 2022?

At the end of 2022, BESS projects were included in the bidding for energy projects in Poland for the first time. In January 2024, the Polish Energy Regulatory Office announced the results of the energy storage tender, and Greenvolt became the biggest winner of the bidding, winning 6 projects with a total of 1.2 GW.

How many MW is a Bess project?

The Romanian and Bulgarian governments launched their first round of BESS project bidding in February and March 2024, with project scale reaching 240 MW/480 MWh and 350 MW respectively. In the European energy storage market, Eastern European countries started later than their Western European counterparts.

When does a Bess project start?

These projects are required to be put into operation no later than December 31, 2025. The Romanian and Bulgarian governments launched their first round of BESS project bidding in February and March 2024, with project scale reaching 240 MW/480 MWh and 350 MW respectively.

Will Antares join a Bess project?

Once commissioned in mid-2026, Antares will join one of Europe's largest BESS project, the 364 MW /1457 MW Mufasa project also developed by Return. Together, they will accelerate Netherlands transition to renewable energy. The Antares BESS project will also be the second largest in Netherlands after the Mufasa.

South Africa's Ministry of Electricity and Energy has announced the list of bids received for Bid Window 3 of the Battery Energy Storage Independent Power Producers Procurement Programme (BESIPPPP). Thirty ...

The successful bids receive a premium price per kWh, with bids ranging from EUR0.0776-0.0878/kWh (USD0.083-0.094). A total of 175MW, 21 successful bids, went to solar projects ...

# Successful bid price of BESS project in Netherlands 2026

AES IN issued an all-source Request for Proposals (RFP) in 2023 in advance of its IRP to price out BESS. Averaging the cost of the bids resulted in a near-term cost of ...

The bidders, the minister said, expected commercial close for the five projects in January 2026, with full commercial operations by January 2028 at the latest. The minister also added, in the press briefing, that future bid ...

Netherlands" climate minister has allocated EUR100 million in subsidies to the deployment of "time-shifting" battery storage with solar PV projects for next year, an acceleration of a larger EUR400 million-plus programme.

The increased frequency of negative price periods has improved margins for UK battery assets, and Aurora notes that the increased use of BESS to increase renewable ...

Elia said that 22 projects took part, adding up to 1,576MW. All projects bidding in the auction were successful, and although natural gas resources comprised the majority of bids, there was also a significant number ...

The success of the BRPL and GEAPP project has encouraged regulators and distribution companies to move forward with their own BESS projects, aiming to accumulate operational ...

The second phase of the project was operationalized a year ago which brought its total energy storage capacity of the project to 530 MW / 2120 MWh, bringing it among the 5 ...

In June 2024, ERCOT experienced its largest-ever monthly increase in new battery energy storage capacity. 649 MW became commercially operational.

This follows the extension of the ITC as part of the December 2020 spending bill, which further energized the already surging market for solar-plus-storage projects. Total project costs for ...

In December, PowerChina's 2025-2026 energy storage system procurement, which sought 16 GWh of BESS, saw bids ranging from \$60.5/kWh to \$82/kWh, averaging \$66.3/kWh. In January, CGN New Energy procured 4.5 ...

Latest analysis from SolarPower Europe reveals that, in 2023, Europe installed 17.2 GWh of new battery energy storage systems (BESS); a 94% increase compared to 2022. ...

BESS Revenue Models German BESS revenues fell below 100 EUR/kW/yr in Q1"2024 due to mild winter and weak gas prices. By Q3, revenues recovered above 150 ...
