

Successful bid price of home energy storage project in Bulgaria 2026

How many project proposals were submitted in Bulgaria's energy storage procurement procedure?

A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking to support the construction and commissioning of renewable energy storage facilities with a cumulative minimum usable capacity of 3 GWh.

Why is energy storage growing in Bulgaria?

Energy storage in Bulgaria is expanding rapidly as the government awards nearly 10 GWh of capacity to 82 projects, boosting renewable energy reliability and grid stability.

How much money does the NRRP provide for energy projects in Bulgaria?

Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has selected 82 projects that will collectively receive BGN 1.15 billion (approximately \$675 million) in public funding.

How will the selected storage systems be distributed in Bulgaria?

The selected storage systems will be geographically distributed across Bulgaria and connected either to the national transmission grid or local distribution networks. All awarded projects must be operational by March 2026.

From Bulgaria's sun-drenched Black Sea coast to the energy heartland of Eastern Europe, Chinese energy storage technology is playing an increasingly vital role in ...

Bulgaria's Ministry of Energy will finance 82 standalone renewable energy storage projects with a combined grant budget of BGN 1.154 billion (~\$675 million) under the EU-backed RESTORE procurement scheme.

The 82 successful projects were allocated under the "National infrastructure for storage of renewable energy" (RESTORE) procedure of Bulgaria's National Recovery and Resilience Plan (NRRP). The available EU ...

The grant supports projects for the construction of electricity storage facilities from renewable sources, requiring a minimum capacity of 3000 MWh of usable energy, with ...

The Ministry of Energy in Bulgaria has concluded the country's maiden renewable energy auction, selecting over 3 GW of new generation capacity, along with 1.176 ...

From Bulgaria's sun-drenched Black Sea coast to the energy heartland of Eastern Europe, Chinese energy storage technology is playing an increasingly vital role in reshaping the continent's green energy landscape. ...

Successful bid price of home energy storage project in Bulgaria 2026

The projects funded by this initiative are expected to contribute around 3 GW of new renewable energy capacity and approximately 1.2 GW of energy storage to Bulgaria's ...

Sermatec has secured a groundbreaking energy storage project in Bulgaria with a capacity exceeding 430 MWh, aiding Eastern Europe's transformation towards sustainable energy.

Shanghai Sermatec Energy Technology secured a 430 MWh energy storage project in Bulgaria, offering a full-lifecycle solution to optimise grid efficiency. Sermatec began ...

The system is the largest in Bulgaria. Image: Renalfa IPP. A 25MW/55MWh battery energy storage system (BESS) has been commissioned in Bulgaria, Eastern Europe, ...

This auction is a crucial part of Bulgaria's National Recovery and Sustainability Plan, aiming to support economic and social recovery post-pandemic while promoting the ...

The following article covers Bulgaria's current energy mix, energy growth potential, as well as the country's plans on transitioning from lignite coal and nuclear energy to renewable energy ...

The system is the largest in Bulgaria. Image: Renalfa IPP. A 25MW/55MWh battery energy storage system (BESS) has been commissioned in Bulgaria, Eastern Europe, by operator Renalfa IPP, using technology provided ...

Energy storage in Bulgaria is expanding rapidly as the government awards nearly 10 GWh of capacity to 82 projects, boosting renewable energy reliability and grid stability.

Successful bidders are expected to conclude their grant agreement around January 2025. Applications will be reviewed and ranked based on the requested grant per ...

Request for a minimum capacity of 10MWac; Have a technical advisor with previous experience in either a combined project for production and storage or standalone storage project with ...

More ambitious projects - a European funded tender scheme for 1.4 GW/1.68 GWh renewables- plus-storage as well as 6 GWh of stand-alone storage - were previously announced but still ...

The project officially launched in August 2025 and is scheduled for delivery by the end of December, with grid connection and operation expected by March 2026. Sermatec will ...

The energy storage project, officially initiated in August 2025, aims to enhance energy management across Bulgaria. By strategically collecting energy during off-peak hours--when ...

Successful bid price of home energy storage project in Bulgaria 2026

The draft for the RESTORE tender for support to energy storage facilities in the electricity transmission system was issued for public consultation.

The grant supports projects for the construction of electricity storage facilities from renewable sources, requiring a minimum capacity of 3000 MWh of usable energy, with connection to Bulgaria's transmission and ...

Developers of 249 projects in Bulgaria will receive EUR 268 million in total grants for renewable electricity plants with energy storage.

Bulgaria has taken a major step forward in its renewable energy strategy with the inauguration of a 124 MW / 496.2 MWh battery energy storage system (BESS) in the north-central city of Lovech.

? Bulgaria Receives #151Bids for Renewable Energy Storage Projects The Ministry of Energy has received 151 proposals for the construction of renewable energy storage facilities under the # ...

The picturesque Black Sea coast of Bulgaria is becoming a focal point for renewable energy transformation, thanks to the recent success of Shanghai Sermatec Energy ...

Recently, Shanghai Sermatec Energy Technology Co., Ltd. achieved a major breakthrough in the European market by securing a 430+ MWh energy storage procurement ...

Bulgaria preps 3 GWh standalone energy storage tender 2 · The Bulgarian Ministry of Energy is readying to launch a tender on September 2 and provide Capex support for the construction ...

Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has selected 82 projects that will collectively receive BGN 1.15 billion ...

Further, calls by the Bulgarian Ministry for Energy for renewable energy plants with energy storage (crucial to divest reliance away from fossil fuels) have stipulated project deadlines for March 2026. This push in funding ...
