

# Successful bid price of solar storage container project in Bulgaria 2025

How many project proposals were submitted in Bulgaria's energy storage procurement procedure?

A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking to support the construction and commissioning of renewable energy storage facilities with a cumulative minimum usable capacity of 3 GWh.

What is the largest energy storage project in Bulgaria?

A 25MW/55MWh project from IPP Renalfa and BESS supplier Hithium, the largest in Bulgaria. Image: Renalfa IPP. The deadline has now passed for Bulgaria's EU-backed support scheme for standalone energy storage, and the bids submitted amount to four times the available capital available.

How will the selected storage systems be distributed in Bulgaria?

The selected storage systems will be geographically distributed across Bulgaria and connected either to the national transmission grid or local distribution networks. All awarded projects must be operational by March 2026.

What is the largest Bess system in Bulgaria?

The largest BESS online today in Bulgaria is a 25MW/55MWh system deployed by independent power producer (IPP) Renalfa and lithium-ion and BESS manufacturer Hithium.

The biggest construction-related projects that are to drop out of the new RRP include a programme for the construction and reconstruction of water supply and sewerage systems (EUR 152mln), a project for heat and ...

This auction is a crucial part of Bulgaria's National Recovery and Sustainability Plan, aiming to support economic and social recovery post-pandemic while promoting the ...

Developers of 82 standalone battery projects in Bulgaria, for an overall 9.71 GWh in capacity, got approval for EUR 587 million in subsidies.

"CHS Container Bulgaria" Ltd officially started its activity on the Bulgarian market on July 03 2007, as an exclusive representative for "CHS CONTAINER Handel GmbH" for the country. The young and ambitious team set off to repeat the ...

Enery and OMV Petrom form a 50-50 joint venture to build the 400 MW Gabare solar park in Bulgaria, eyeing 600 MWh storage and EUR 200 m investment by 2027.

SolarPower Europe's Agrisolar Best Practice Guidelines are now available to solar developers and farmers in Bulgaria, translated by the Bulgarian Association for ...

# Successful bid price of solar storage container project in Bulgaria 2025

Several large-scale solar photovoltaic (PV) projects with a power capacity above 50 MW were launched into commercial operation in Bulgaria in 2022. Local and international ...

OMV Petrom has purchased a 50% stake in the Gabare photovoltaic project in Bulgaria from Eneer, set to become one of the country's largest solar installations.

These developments come on the heels of Bulgaria's first renewable energy auction held in late 2024, where more than 3 GW of generation and 1.176 GW of storage capacity were secured.

Hithium will provide 55MWh of battery products for a solar-plus-storage project being built by EPC firm SolarPro in Bulgaria.

The Ministry of Energy of Bulgaria prepared EUR 589 million in grants for standalone energy storage projects. The deadline for applications is November 21. With the ...

Bulgaria has officially inaugurated the largest battery energy storage system (BESS) in the Balkans, boasting a capacity of 496.2 MWh. This groundbreaking facility, located in Lovech, is set to enhance the stability of the ...

Energy storage in Bulgaria is expanding rapidly as the government awards nearly 10 GWh of capacity to 82 projects, boosting renewable energy reliability and grid stability.

Summary: Bulgaria's new energy storage tender aims to modernize its power grid and integrate renewable energy sources. This article explores the project's scope, market trends, and how ...

This solar plus storage project, located in Razlog, Southwestern Bulgaria, was realized by the EPC company Solarpro in partnership with the stationary battery manufacturer Hithium. The ...

The Ministry of Energy of the Republic of Bulgaria has announced two requests for proposals for tender participation to support new renewable electricity generation and energy storage capacity under the ...

China-based energy storage company Hithium is supplying the 55 MWh project's batteries while Bulgarian-based solar energy contractor Solarpro is providing turnkey engineering, ...

Austria-based renewable power producer Eneer Development GmbH will establish an equally-owned joint venture with Romanian oil and gas group OMV Petrom (BSE:SNP) to develop a 400-MW solar project in Bulgaria, ...

Purchasing shipping containers is important for global trade. Changes in the container market can greatly

## Successful bid price of solar storage container project in Bulgaria 2025

affect many industries. Recent disruptions in supply chains have introduced new complexities, making market ...

Eligibility is restricted to applicants (or the shareholders of applicants), which prove equity on their balance sheets of more than BGN 6 million for battery storage projects ...

A solar battery costs \$8,000 to \$16,000 installed on average before tax credits. Solar battery prices are \$6,000 to \$13,000+ for the unit alone, depending on the capacity, type, and brand. A ...

Bulgaria's standalone energy storage tender, which aimed to procure at least 3 GWh of cumulative usable capacity, ultimately awarded more than three times that amount.

U.S. power demand is surging as data centers plug in. The cheapest, fastest way to keep the lights on? Solar-plus-storage, not gas generation.

To support Bulgaria's transition to a more sustainable and diversified energy mix, IFC is financing a 225-megawatt (MW) direct current solar photovoltaic (PV) project ...

Bulgaria on track to add 1.5 GW of solar power by mid-2026 05 August 2025 - The pace of large photovoltaic projects in Bulgaria indicates that total capacity can reach 6 GW by the middle of next year
