

The latest export ranking of energy storage companies

What are the top 5 energy storage manufacturers?

The top five manufacturers were CATL,EVE Energy,Hithium,BYD,and CALB. CR5 has surpassed 75%,signaling a highly concentrated market with limited growth opportunities for new entrants. According to InfoLink,300Ah+cells now account for nearly 50% of the global utility-scale energy storage market in a single quarter.

What was the energy storage industry like in 2024?

In 2024,industry concentration remains high,with CR10 reaching 90.9%,roughly the same as in the first three quarters of the year. The top five companies in global energy storage cell shipments for 2024 were: CATL,EVE Energy,BYD,Hithium Energy Storage,and CALB. The top themes for the year were: stability,market shift,and key clients.

Which energy storage cell manufacturers are expanding overseas in 2024?

In 2024,frequent policy shifts and record-breaking tenders have made expanding overseas a top priority for manufacturers. According to InfoLink's statistics,non-China markets' energy storage cell shipments reached 137.3 GWh,with the top five suppliers being CATL,BYD,EVE Energy,AESC,and REPT.

Why was 2024 a great year for Chinese energy storage companies?

Overall,2024 was a standout year for Chinese energy storage companies,whether industry leaders like CATL or specialized players like HiTHIUM. These companies demonstrated strong global shipment performance,highlighting China's robust capabilities and global influence in the battery sector.

Why is Panasonic a leading energy storage company?

Thanks to a wide and varied portfolio of solutions,Panasonic has positioned itself as one of the leaders in the energy storage vicinity. Panasonic is one of the industry's top names due to its advances in innovative battery technology alongside strategic partnerships and extensive experience in manufacturing high-quality products.

Are innovative storage technologies the future of energy?

With demand for clean, reliable and efficient energy continuing to climb, companies pioneering innovative storage technologies have a spotlight shone on them to ensure the future and success of the energy landscape.

Discover the current state of energy storage companies in the World, learn about buying and selling energy storage projects, and find financing options on PF Nexus.

In the first three quarters of 2024, global utility-scale energy storage cell shipments reached 180 GWh, up 49.4% YoY. The top five manufacturers, CATL, EVE Energy, Hithium, CALB, and BYD, ...

The latest export ranking of energy storage companies

Global energy storage's record additions in 2023 will be followed by a 27% compound annual growth rate to 2030, with annual additions reaching 110GW/372GWh, or 2.6 times expected ...

In this week's Top 10, Energy Digital takes a deep dive into energy storage and profile the world's leading companies in this space who are leading the charge towards a more sustainable energy future.

According to InfoLink's Global Energy Storage Supply Chain Database, global energy storage cell shipments totaled 314.7 GWh in 2024, up 60% YoY. The market showed a ...

In 2024, the global energy storage market continued its rapid growth, bolstered by policy support and increasing market demand. According to SMM statistics, global shipments of energy storage battery ...

Figure 2: Cumulative installed capacity of new energy storage projects commissioned in China (as of the end of June 2023) In the first half of 2023, China's new energy storage continued to develop at a ...

The 2023 rankings by the Zhongguancun Energy Storage Industry Technology Alliance highlight China's top battery energy storage system integrators across domestic, global, user-side, and DC markets, ...

The world shipped 38.82 GWh of energy-storage cells in the first quarter this year, with utility-scale and C&I projects accounting for 34.75 GWh and small-scale (including telecom projects, hereafter as small ...

Recently, a report by InfoLink pointed out that the global shipment of energy storage cells reached 38.82 GWh in Q1 2024. The top five companies in terms of total shipments in Q1 2024 were CATL, EVE ...

Energy Storage Systems Our commitment to delivering world-class integrated energy storage solutions to our customers is built upon employing cutting-edge renewable energy conversion ...

The Heavy Hitters: 2025's Storage Champions Based on the latest industry rankings and market performance [1], these companies are rewriting the rules of energy storage:

The energy and commodities research firm said that the mainland China battery energy storage market grew by 400% in 2022, which has led to local companies entering the top global rankings as they ...

Energy Storage System (ESS) suppliers -- from battery manufacturers to smart panel providers -- tell Solar Builder magazine what's new in 2025.

Numerous companies have emerged as key players in the green energy revolution, including project developers, renewable energy investors, and financial, technical, ...

The top five companies in global energy storage cell shipments for 2024 were: CATL, EVE Energy, BYD,

The latest export ranking of energy storage companies

Hithium Energy Storage, and CALB. The top themes for the year ...

It is more significance development for China's energy storage In 2023. The annual growth rate of new energy storage set a new record,with two years ahead of schedule achieve the national 14th Five ...

The companies that nail these challenges will likely dominate the next phase of global energy storage expansion. And honestly, with export volumes projected to hit 100GWh+ in 2025 [10], ...

With renewables now supplying over 35% of global electricity, the demand for reliable energy storage systems (ESS) has turned battery makers into rockstars. But how do ...

With renewables dominating power grids and EVs zipping through streets, companies racing to store clean energy are rewriting the rules of the game. But who's actually ...

This report lists the top United States Energy Storage companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive research and ...

As the share of renewable energy in the global energy mix grows, there is an increasing demand for a flexible and resilient energy system. Utility-scale energy storage solutions contribute to ...

This information was prepared as an account of work sponsored by an agency of the U.S. Government. Neither the U.S. Government nor any agency thereof, nor any of their employees, ...

The top five global energy storage system integrators (AC side) in Q1 2025 were: Sungrow, Tesla, BYD Energy Storage, HyperStrong, and CRRC Zhuzhou Institute. The shipment performance of leading players indicates ...

Chinese energy storage battery companies performed exceptionally well, achieving record-breaking global shipments. CATL maintained its leading position for consecutive years, while other ...

Latest NewsFigure 3: Top 10 Chinese energy storage PCS providers ranked by number of shipments in the 2024 domestic market, Unit: GW In 2024, in the global market, the ...

Europe Energy Storage Companies This report lists the top Europe Energy Storage companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors ...

Meanwhile, global energy storage demand expanded across regions, driving companies to develop worldwide R& D, production, delivery, and operations. Despite short-term ...
