

The latest news from cicc energy storage industry forum

Following similar pieces in 2022/23, we look at the biggest energy storage projects, lithium and non-lithium, that we've reported on in 2024.

Terms of demand, domestic policy support underpins the sustainability of the growth momentum for independent energy storage; within the supply chain, increasing reliability requirements and ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy ...

CIC energiGUNE, the Basque research centre of reference in electrochemical and thermal energy storage, has ended 2019 as one of the three most important research centres in Europe in its sector. With more ...

At present, the global energy storage market demand has ushered in explosive growth, especially in the field of long-term energy storage, which has a large market capacity, ...

CICC's research report predicts that the growth rate of domestic energy storage installations will double next year, ushering in a new cycle for lithium batteries.

Portuguese utilities firm EDP expects to accelerate its solar and battery storage projects in Australia after securing government awards for long-term revenue generation, the company said on...

CICC released a research report saying that the global energy storage inflection point is accelerating, the United States may meet the rush to install, and the energy transition ...

The Deputy Minister of Cabinet, Planning and Strategy of the Department of Industry, Innovation, Trade and Tourism of the Basque Government, Pedro Gómez Damborenea, has highlighted ...

The spin-off created at CIC energiGUNE has been invited by the organizers to the sixth edition of AIC Next - Creativity, Innovation and Values, in order to make its services project of high added value on ...

Both domestic energy storage project orders and yields are expected to improve, and there is optimism about the sustained increase in activity within the energy storage sector and profit ...

In the energy storage forum, our deputy general manager Wang He shared the industry-leading innovation path from the aspects of long-term energy storage and liquid flow battery ...

The latest news from cicc energy storage industry forum

Introduction: The parallel session on “High-quality Development of New Types of Energy Storage Accelerates Global Energy Transition” will bring together distinguished representatives from ...

CIC energiGUNE, the Basque research center of reference in battery storage, thermal energy solutions and hydrogen technologies, and member of the Basque Research & Technology Alliance- BRTA, has obtained ...

Latest NewsOn October 23, 2025, during the International Forum on Energy Transition, the China-UK Hydrogen and Energy Storage Cooperation Forum was held in Suzhou. The event brought together representatives from ...

A roundup of large-scale European BESS project news, with Principia completing a project in Greece, Repono buying one in Romania, Kyon choosing optimisers for two in Germany and ...

Batteries Europe is an initiative promoted by the European Commission to bring together the research community, distinguished representatives of the industry and the academia in a forum that has ...

During the forum, several significant industry-leading achievements were unveiled. The event also featured a signing ceremony for major cooperation projects and ...

The benefits of energy storage for both end users and the grid have already reached a tipping point where costs are justified for many business cases - this trend shows ...

The inaugural Sodium-Ion Battery Industry Chain and Standards Development Forum, jointly organized by the China Electronics Standardization Institute and the China ...

CICenergiGUNE, the Basque research center of reference in electrochemical energy storage, thermal energy storage and conversion and hydrogen technologies, has ...

CICC: The rush to install is improving the operating cash flow of the photovoltaic industry chain. Focus on anti-involution, high-efficiency components, and energy storage ...

The Energy Storage Association is the leading national voice that advocates and advances the energy storage industry to realize this goal--resulting in a better world through a ...

1. What is the main objective of the Power Our Future 2025 event, and what makes it especially relevant this year? Power Our Future 2025 ("POF 2025") aims to bring together key players from the global ...

The Deputy Minister of Cabinet, Planning and Strategy of the Department of Industry, Innovation, Trade and Tourism of the Basque Government, Pedro Gómez Damborenea, has highlighted “the relevant role at international ...
