

Turnkey floor standing battery EPC contract price in Vietnam

Who is EPC main contractor?

EPC Main Contractor: LILAMA Corporation. The Project consists of two combine cycle power plants 2x1 using 4 turbines of F generation. Each plant has capacity of 750MW with gas consumption of about 900 million m³/year/plant, equivalent to 3.1 million m³/day. Thang Long cement plant has the Owner Thang Long Cement JSC.

Should EPC contracts be split in on- and offshore parts?

If EPC contractors apply the "Credit Method", the split of EPC contracts in on- and offshore parts would not further mitigate tax risks. In the "Withholding Method" or "Hybrid Method", splitting EPC contract in on- and offshore parts might optimize FCWT.

How do EPC contractors declare fcwt?

EPC contractors can choose to declare FCWT under one out of three methods: the "Withholding Method", the "Hybrid Method" and (c) the "Credit Method". The default method is the "Withholding Method" by which deemed VAT and CIT rates apply on gross income, and all administration and tax payment responsibilities rest with the Vietnamese customer.

Which EPC activities require an operational office?

This includes, among others, branches, operational offices, plants, workshops, construction sites, construction, installation and assembly works, etc. Almost all EPC activities require an operational office to be established subject to the relevant licensing (see above), which in turn constitutes a PE.
