

Turnkey microgrid storage EPC contract price in Germany

What are the financing options for EPC projects in Germany?

Financing options are attached in annex A. The majority of EPC projects in Germany are shared savings projects in which the ESCO finances the investments. For doing so, the instrument of forfeiting (see annex for explanation) is the preferred financing practice of the ESCOs and is usually also accepted by the

Is EPC a good investment in Germany?

Experience with EPC in the German market. At the same time, the share of EPC projects in the private sector is growing, with a strong focus on hospitals/healthcare, but also significant shares in the services sector and in industry. The residential sector is seen very difficult for EPC, to date there are no documented EPC pilot projects.

Can a client take over the financing of an EPC project?

Clients (though there are exceptions). In recent years, there has been a growing number of EPC projects in which the client took over (parts of) the financing of the investments (guaranteed savings approach), thus reducing or taking away the

Construction of turnkey PV and BESS plants in the MW range. Reliable consultant in the EPC process from plant design to the operating phase.

While the price per kWh household electricity is roughly twice the price of electricity for industry, the price increase for industry was higher in recent years.

EPC Contracts are comprehensive agreements in which a single contractor takes on full responsibility for the engineering (E), procurement (P), and construction (C) phases of a project. These contracts are typically executed on a turnkey ...
