A paid subscription is required for full access. In March 2024, wholesale electricity prices in Croatia declined to 64.31 euros per megawatt-hour, the lowest power price in the country since May 2021. Croatia recorded its highest figure in August 2022, at over 494 euros per megawatt-hour.

How much is a kWh in Croatia?

This is 10% more than yesterday. In Croatia's local currency this equivalent to 729 HRK MWh, or 0.73 HRK kWh.

Why did electricity prices rise in Croatia in 2022?

Croatia recorded its highest figure in August 2022, at over 494 euros per megawatt-hour. Over the past year, electricity prices in Croatia soared, the result of a number of factors including increased heating demand due to cold winters, a rise in natural gas and coal prices, and a shortage of gas supply following Russia's invasion of Ukraine.
